

DPH190 Blister Packing Machine

Packing range: Solid medicine, tablets, capsules, soft capsules etc.

Functions:

Automatically complete the following function: PVC feeding, PVC heating PVC forming, Medicine feeding, sealing, batch number, cutting, blister output.

Speed	Max cutting speed	200times/min
	Max material line speed	8m/min
Max forming depth		12mm
Max forming area		170×170mm ²
Max index length		190mm
Max cutting length		95mm
Power	Supply: 380V/AC/3-Phase/50Hz	
	or according to the customer's requirement	
	Consumption: About 9kw	
Air	Pressure : 0.6-0.9Mpa	
	Consumption : <15m ³ /h	
Water	Consumption : <2m ³ /h	
	Water temperature : 15~20°C	
Material	PVC	Thickness : 0.25~0.35mm Max width : 190mm
		Reel core diameter : 75~76mm
	ALU foil	Reel diameter (max.):600mm
		Thickness : 0.02mm Max width : 190mm
		Reel core diameter : 75~76mm
		Reel diameter (max.):240mm
Dimension (L×W×H)		3450×1250×2250mm ³
Weight		About 2000 kg
Noise		< 75dB
