

DPP-180H High Speed Tablet/Pill/Capsule Alu Alu Blister Packing Machine

This machine is used in medicine packing, carries on the technical improvement and the implementation GMP production equipment, the product has been sold to the domestic and foreign each big pharmaceutical factory and the large, the medium hospital, and exports more than 20 countries and the region, received the customer favor and the high praise.

Feature:

- Speed regulation with frequency conversion and mechanical traction;
- Adjustable stroke, adjustable range of 30-100mm, convenient adjustment, accurate synchronization;
- It is standard equipped with four stations (molding, heat sealing, indentation and blanking) and installed with four columns for each station, making the adjustment more convenient and stable;
- Plate mold, positive pressure molding, batch number, indentation and tangent, aluminum foil/aluminum automatic hair;
- Equipped with a set of universal feeder, the filling rate is up to 99.5% or more;
- Small size, light weight, adjustment and maintenance space, etc.

Technical Parameters:

Model	DPP-180H
Cutting Frequency	AL-AL 15-30 tims/min
Travel Range	30-110mm(Adjustable)
Max Forming Area	160x100mm
Max Forming Depth	20mm Available for customized request
Main Motor Power	3.8kw
Air Volume Flow	≥0.2m ³ /min
Air Pump Pressure	0.4-0.6Mpa
PVC Spec	0.25-0.5x180mm
PTP Spec	0.02-0.35x180mm
Dialysis Paper	50-100gx180mm
Overall Dimensions	3050x590x1550mm
Weight	780kg
