

BZT-200E Automatic Wrapping Machine

BZT-200E automatic cellophane packaging machine is mainly used for the packaging of exterior boxes of medicines, foods, health products, cosmetics, audio-visual products, and other industries. Such as medicine boxes, chewing gum, health products, tea, sugar cubes, condoms, rubber, mosquito coils, cigarettes, tapes, VCD (CD) discs, playing cards, transparent soap, square batteries, floppy disks, etc. have played a role in anti-counterfeiting, moisture-proof, And improve product quality, increased product added value. This machine can be produced in conjunction with the cartoning machine.

Feature:

1. Compact and reasonable structure, stable and advanced performance, easy operation and maintenance.
2. Multi-function digital display converter, stepless speed variation.
3. Easily Machine mold replacement, only takes 40 minutes.
4. With automatic feeding, automatic counting, photoelectric tracking.
5. The transmission part is equipped with various types of protection devices and faults alarming system.
6. No packaging No film, inspection of consumables does not waste packaging materials. Equipment additional functions are available, such as, Date Printer, Automatic Feeder. etc.

Technical Parameters:

Model	BZT-200E
Packaging Speed	40-80 boxes/min
Packaging Material	BOPP film and golden easy-tear film
Packaging Size	L(50-240)*W(20-140)*H(10-80)mm
Machine Dimension	2000×790×1550mm
Machine Weight	About 750kg
Total Power supply	4.5kW
Voltage Supply	220V/(50Hz) or 380V
