

BS-PE4535 Automatic Heat Tunnel PE Film Shrink Wrapping Packaging Machine

It can be widely used in single, collective or combined packaging of food, beverage, medicine, daily chemical, hardware, wood products, stationery, printing products, plastic products, glass products, electronic components and other products. It can continuous working and suitable for PP PVC POF film shrink packaging.

Technical Parameters:

Model	BS-PE4535 (BS-PE5040;BS-PE6040)
Voltage	220V/50-60HZ
Power	20KW
Tunnel size(mm)	1200L*450W*350H
Temp. Range	0-300°C
Max.Load	15KG
Speed	0-10m/min
Machine Size(mm)	2200L*700W*1520H
Weight	230KG
Conveyor Style	Net style/ Chain style /Teflon mesh
