

Bag Packing Machine for Sauce HT-8Y

Description:

1. This automatic liquid packaging machine is suitable for the packing liquid, the hydrodynamic material, such as milk, water, honey, ketchup, Tomato Paste, detergent, yellow wine, soy sauce, vinegar, fruit juice, peanut thick liquid, jam, hot pepper sauce, thick bean sauce packed in bags.
2. The machine has a piston pump measured, automatically take bag, bag coding, automatic bag opening, the liquid fillings into the bag, bag sealing stations.
3. It can be fully automatic operation, it can achieve product packing assembly line work, and improve production efficiency and significantly reduce product cost.
4. It conforms to the food processing machinery's sanitation standard. On the machine, the spare part which contacts with the material and pouch conforms to the standard of food sanitation request on material processing, food health and security guarantee.

Application:

Pouch Drawing & Samples:

Machine Function:

1. Easy to operate. The machine with Japan Mitsubishi PLC control, man-machine interface with touch screen control system, it can be operate easily.
2. Frequency control. The machine with frequency control, the required speed can be adjustable within the range according to any needs of reality in production.
3. Automatic detection. No pouch or pouch is not opened completely, no feeding, no sealing, pouch can be reused, avoid wasting materials, it can reduce production costs for user.
4. Safety devices, when the abnormal pressure of work or failure of heating pipe, it will alarm.
5. The width of the bags could be adjusted by electrical motor. Press the control-button could adjust the width of clips, easily operate, and save time.
6. Part of plastic bearings are imported, no oil, reduce pollution materials.
7. Use no oil vacuum pump, avoid polluting the environment in the production.
8. The packing materials loss low, what this machine is used the preformed bag, the bag pattern is perfect and has a high quality of the sealing part, this improved the product specification.

Main Technical Parameter:

Model	HT-8Y
Bag Size Range	(L)100-300mm,(W)100-200mm
Max. Packing Filling	20-1500ml
Packing Speed Range	20-50bags/min
Packing Precision	error<±1%
Pouch Type	Stand-up bag with zipper, Flat bag, paper bag, composite material bags etc.
Total Powder	4.5 kw
Air Consumption	0.6m ³ /min
Machine Dimension	(L)3000*(W)1450*(H)1850mm
Machine Weight	1200kg
Note 1	More machine models according to the client's packing requirements for choice
Note 2	According to the customer request, provides the special design
