

Semi-automatic Air Freshener Aerosol Can Filling Machine LM-QU

Automatic Aerosol Filling Machine is composed filling machine, sealing machine and aerator machine. They are suitable for filling all kinds of liquid materials, such as thin liquid (kerosene), thick liquid (facial cleanser, PU foam) ect.

Technical Parameters:

- Filling Volume: 30-500ml (can be customized)
- Filling Accuracy: $\pm 1\%$
- Can Height: 70-330mm
- Capacity: 1200-1600cans/hr
- Top speed: 20 CPM
- Height of cans(*): 70-330 mm
- Diameter of cans(*): 30-65 mm
- Filling tolerance: $\leq \pm 1\%$
- Air working pressure: 5 bar
