

GZF Aluminum Tube Filling and Sealing Machine

Specifications

1. Aluminum tube filling and sealing machine
2. Sealed by 3 folding or 5 folding
3. SUS 304 structure
4. CE
5. Manufacturer

Description

1. A packaging machine specially designed for filling and sealing machine.
2. All new design.
3. The new technology of this machine is designed by our factory, which get the technical patent.
4. A highly automated machine. The operation cycle, from cup feeding, filling, sucking the lid, put the lid, sealing to product out feed are fully automatically performed. It's a necessity in mass production line!
5. Available Products: Chili / All kinds of Sauce

Technical Data:

Description: Filling and Sealing Machine
Packaging Speed: 3000 – 3600 pcs / hour
Filling Volume: 50–200 ml
Power: 3-phase 4-line socket (380V50HZ)
Electric Machinery Power: 0.75kw
Heat Up Power: 4kw
Air Pressure: 0.5Mpa—0.7Mpa
Max. Air Consumption: 0.5m³/min
Timing Mode: Stepless speed regulating
Machine Dimension: 2250*1050*2190mm
G.W.: 1500 kg
