

AVF Semi-automatic Aerosol Propellant Filler

AVF semi automatic aerosol propellant filler is suitable for the production of insecticide, air freshener, bakery mould release spray, paint spray and cosmetic spray etc.

AVF semi automatic aerosol propellant filler consists of sprayed carbon steel frame and stainless steel machine parts. It's with propellant filling head, inflating system, booster pump and full air driven control system included.

AVF semi automatic aerosol propellant filler requires only 1 worker to operate. Propellant inflating is controlled by foot pedal.

AVF semi automatic aerosol propellant filler is suitable for aerosol propellant quantitative filling such as Freon, propane, butane, DME, CO₂, N₂, O₂, compressed air and 134a.

AVF semi automatic aerosol propellant filler is a set of simple structure, easy maintenance machine. The maximum output rate could reach 25cans/min.

Model	AVF
Filling capacity	20-450ml (can be customized)
Filling accuracy	≤±1%
Production capacity	800-1200 cans/hr
Air source	0.6Mpa-0.8Mpa clean and stable air source
Can Height	60~350
Can Diameter	Φ16~Φ100
Weight	about 250kg
Dimension(L×W×H)	900×500×1500
