

Automatic 6 Nozzles Piston Filler NFP-460

NFP-460 suits for various low viscosity liquid, such as lotion, syrup, cleanser, etc. No adjustment is required as changing products and discharge vast volume to achieve high productivity with excellent accuracy.

Features:

1. Suits for free flowing liquid such as milk, water, oil, lotion, etc.
2. No bottle no fill.
3. Dipping nozzles can prevent spillage and diminish bubbles.
4. Numbers of gear pumps fill simultaneously to achieve high accuracy in high speed.
5. Equipped with spacer to make precise filling position.
6. Controlled by PLC control system with LED screen.
7. Pneumatic shut-off nozzle prevent liquid from dripping down.
8. Equipped with emergency button and three colors emergency light.
9. Made of corrosion resistant stainless steel to meet c GMP standard.
10. Accumulated tray underneath nozzles.
11. Can be connected with production line or work independently.

Specification:

Power supply: 110V or 220VAC, 50/60Hz

Filling range: 50-4000ml

Filling accuracy: 0.5%~1%

Option Accessories:

Filling module: piston, peristaltic

Feeding tray

Protect casing
