

Rotary Shrink Wrapping Machines 2035 RT

Made available by us is a technologically advanced range of Rotary Shrink Wrapping Machines that is used for printed PVC shrink labels. Our highly experienced engineers manufacture these machines using excellent quality material so that these are in compliance with international quality standards. These machines help in labeling shrinkable sleeves on the pet bottle. The range we offer has a variable conveyor for blower. Variable speed conveyor, variable speed blower and digital temperature controller provide high quality shrinkage.

Applications:

- Pesticides bottle
- Pharmaceutical bottle
- Textile
- Cosmetic items
- Talcum powder bottle
- Playing cards
- Mineral water
- pickle bottle
- Soap & shampoo bottle
- Gift items
- Welding rods

Other details:

Models	Travel time in Hot zone (sec)	Windows size (mm)		Phase	Power (Kw)	Dimensions (mm)			Weight (Kg)
		B	H			L	B	H
