

Powder Heavy Bag Packaging Unit

Our company is a new type of packaging unit for powder material packaging in agrochemical and food industries. The unit has automatic bag feeding, bag loading, filling, bag feeding, sealing and other functions. Can work with all kinds of powder material equipment linkage, to achieve large size packaging unmanned production operations.

Technical parameters:

Packaging materials:

1. Woven bag (coated film)
2. Kraft paper bag
3. Package size (unit: mm) : (800 ~ 1000) x (450 ~ 550) length x width
4. Packing weight: 25kg/bag
5. Measurement accuracy: + / - 100g
6. Packaging speed: 2 ~ 3.5 packages/min (depending on packaging materials, bag size, etc.)

Sealing method:

1. Woven bag: hem/seam
2. Kraft paper bag: heat sealing/sewing
3. Composite film plastic bag: heat seal
