

## *SJIII-K500 (PE) Automatic Particle Packing Machine*

The SJIII-K series Automatic Granule Packaging Machine is designed and manufactured by advanced science and technology in the world. It has reliable quality, high efficiency and beautiful shape. It be controlled by PLC, Use encode control the length of bag. We have adopted advanced photo electricity track planet differential compensating mode and automatic constant-temperature control mechanism, which makes our machine has very fast packaging speed. Moreover, our machine can carry out step less speed adjustment, and automatically finish the processes of bag making, computation, filling, sealing, cutting, counting and printing number on the bag. It can be used for various compound packaging materials.

### **Specification:**

| MODEL                   | SJIII-K500     |
|-------------------------|----------------|
| bag length (mm)         | 100-550        |
| bag width (mm)          | 120-290        |
| packing film width (mm) | 260-600        |
| capacity (bag/min)      | 20-60          |
| volume (ml)             | 250-5000       |
| power (kw/V)            | 3.5            |
| air (MPA)               | 0.65           |
| air consumption (L/MIN) | 600            |
| size (L×W×H) (mm)       | 1180*1890*2460 |
| weight (kg)             | 800            |
