

Full-Automatic Liquid Filling Machine

1. The filling machine can be designed to many kinds of filling machine with different principle according to liquid character. The fabrication technology is very sophisticated and the processing is very accuracy.
2. You can customize the machine to meet your different need.
3. The packaging line is suitable for the packaging of baverage, oil, soy sauce, wine etc.

Technical parameters:

Production capacity	50-80 bottles/min
Power	0.27KW 220V 50 Hz
Air source	0.6-0.8 MPa
Weight	600Kg
