

Automatic Mineral Water Filling Machine CGF24-24-8

This automatic mineral water filling machine mainly used in the water filling operations, the three function of bottle washing, filling and capping are composed in one body of the machine, the whole process is automatic, it is conveniently turned to adjust the machine to fill various types of bottles, the filling operation is faster and more stable due to the advanced filling valve technology, The famous brand programmed controller (PLC) is adopted to control the machine runs automatically. It is an ideal preferred equipment for beverage maker

Technical Parameters:

Model	CGF24-24-8
Capacity :(for 500ml)	10000-12000 Bottle per hour
Suitable bottle shapes	PET Circular or square
Bottle diameter	50-120 MM
Bottle Height	150-320 MM
Compressor air	0.3-0.7 Mpa
Washing Medium	Aspetic Water
Washing pressure	0.06-0.2mpa
Application	Still water/Pure water/Mineral water
Power	6.57 kw
Overall Dimensions	2900*2200*2250 mm
Weight	4200kgs
