

Automatic Sticky Food Horizontal Pillow Packaging Machine GQX-250/350

Performance and structural characteristics

- *Advanced dual frequency control, flexible to control the length of bag, saving time and film.
- *Manual operation machine, convenient and quick parameter setting
- *Fault self diagnosis function, clear failure display.
- *The digital input of the high precision photoelectric tracking system, sealing and cutting more precise.
- *The independent PID temperature control, suitable for all kinds of packaging materials.
- *The positioning stop function, non stick knives, do not waste film.

Packaging range

This machine is applied to packing the towel, facial tissue paper, medicine, Chicken rolls, noodles, fish, sausage, popsicle, candy, cookies, fruit and other soft, strip or irregular goods packaging.

Technical Parameter

Model	GQ-250	GQX-350
Film width	Max. 250mm	Max. 350mm
Bag making length	65-150 or 100-3000mm	65-190 or 120-300mm
Bag making width	30-100mm	30-150mm
Production height	Max. 40mm	Max. 60mm
Packing speed	45-180bag/min	45-150bag/min
Film roll diameter	Max. 320mm	Max. 320mm
Power specification	2.4Kw/220V, 50/60Hz	2.7Kw/220V, 50/60Hz
Outside dimension	4000*920*1500mm	4100*1050*1560mm
Gross weight	500kg	600kg
