

CSD Filling Bottling Machine DCGF24-24-8

Our newly designed DCGF serious monoblock carbonated drink filling machine is designed for bottle filling, it can suit for PET bottle and glass bottle size between 150ml to 2000ml, can customized to maximum of 3000ml. Genus design of capping design makes different screw cap change into one simple easy torch. On machine surface is only leaving 3 points of bearing support point which makes drainage so easy and without any dirt stain.

Description

- Electric saving
- Precise filling level
- 99.9% yield
- Easy changing for different design bottle
- Speed adjustable

Technical parameters:

Model	DCGF24-24-8
Capacity (B/H)	7500 BPH (500ml)
Suitable Bottle Size	150- 2000ml
Water Pressure	0.18-0.25Mpa
Water Consumption (kg/h)	1000
Washing Valves	24
Filling valves	24
Capping Heads	8
Filling Precision	<+5MM
Air Pressure	0.5Mpa
Air Consumption	0.3m3/min
Power (kw)	7.5
Weight (kg)	4500
Dimension (l*w*H)	2800*1900*2100 rmm
