

Rotary Juice Automatic Filling Capping Machine

This automatic production line is designed with multiple function, it can arrange bottles, fill liquid or paste, feed bottle plugs and caps, cap bottles and sort finished products automatically. It can help you improve working efficiency. This is suitable for essential oil, water, juice etc. We can customize the machine and make it can work for different sizes of containers at the same time.

Technical Parameter:

Voltage	AC220V 50-60Hz 3000W
Required Air Compressor	0.4-0.6MPa / ≥ 7.5 kw 200L
Filling heads	2
Filling range	10-100ML 30-300ML
Filling Speed	20-40 bottle/min
Filling Accuracy	$\pm 1\%$
Suitable for bottle mouth	$\geq \Phi 15$ mm
Suitable For Cap	Metal lock cover
Bottle Diameter/ Height	Diameter : 20-60mm h : 50-150mm
Machine Size	1700*1700*1500mm
