

Plastic bottle forming filling sealing machine MY-5L

This machine is a kind of compact type liquid filling and sealing machine, it is suitable for small batch filling for different product and widely used for filling oral liquid, perfume, liquid, essential oil, olive oil, honey, cream, health care product etc. in pharmaceutical, herbal, pesticide, cosmetic, food and supplement area

Main features:

- 1) PLC control, stepless frequency conversion adjustment.
- 2) Full Automatic plastic molding, filling, batch number, cut the tail, cutting,
- 3) man-machine interface device, the operation is simple and clear.
- 4) Filling head does not drip no bubble, no overflow.
- 5) And related parts in contact with the liquid are all made of high quality stainless steel material, conform to GMP standard.
- 6) main pneumatic components, electrical appliances imported accessories.
- 7) Electronic peristaltic pump control filling system and mechanical filling two kinds, accurate measurement error is small

Technical Parameters:

Model	MY-2L
Capacity	2-25 times
Range of measurement	1-50ml
Packaging materials:	PVC/PE
Maximum depth forming:	12 mm
Material Size	Max width 120mm(0.2-.04mm thickness)
Power	3.5KW
Voltage	220V/50-60HZ or 380V/50HZ
Net weight	650kg
Overall dimensions	(L1800*(W)800*(H)1400

Model	MY-5L
Capacity	10-25 times/min
Range of measurement	1-50ml
Packaging materials:	PVC/PE
Maximum depth forming:	12 mm
Material Size	Max width 120mm(0.2-.04mm thickness)
Power	4.5KW
Voltage	220V/50-60HZ or 380V/50HZ
Net weight	900kg
Overall dimensions	(L2500*(W)1100*(H)1600

Model	MY-5LS
Capacity	10-25 times/min
Range of measurement	1-50ml
Packaging materials:	PVC/PE
Maximum depth forming:	12 mm
Material Size	Max width 240mm(0.2-.04mm thickness)
Power	6.5KW
Voltage	220V/50-60HZ or 380V/50HZ
Net weight	1200kg
Overall dimensions	(L3200*(W)1100*(H)1600
