

INNOVATIVE TECHNOLOGY
FOR BETTER LIFE

Donut Making Machine GGTS-100

Application

Commercial Donut Making Machine High Performance can make different types of donuts.

Main Feature

Fully stainless steel,nice appearance,flexible molder,automatic operation.

Features of Commercial Donut Making Machine High Performance

- For automatically donuts machine, the molder is flexible, then can produce different size donut.
- With nice appearance for the donut
- With fully stainless steel.
- Automatically operation,besafe and at ease.Both tempreture and conveyor speed can be adjustable

Technical Parameters:

Model	GGTL-100	GGTS-100
	High Configuration	Standard Configuration
Voltage/Frequency	220V, 50Hz, 6KW	220V, 50Hz, 6KW
Material	Stainless Steel	Stainless Steel
Capacity	300-1200pcs/H	300-1200pcs/H
Dimension	1050*550*720mm	1050*550*720mm
Weight	48KG	48KG
Mould	3 groups	1group
Transmission Oil Screen	1pcs	0
Temperature Control	1set	0
