

Automatic Weighing Mustard Oil Packing Machine CZDG-6

This machine is suitable for liquid weighing and filling from 5kg to 30kg. It is an ideal packaging machine for food, medicine, cosmetics and fine chemical industry, especially used for quantitative filling for water, edible oil and lubricating oil. This machine adopts programmable controller (PLC), high-speed industrial control configuration software for real-time monitoring control, easy to use and adjust. It also can automatically complete a series of operations such as counting into the bottle, filling by weight, conveying out of the bottle. The whole machine is made according to GMP standard. Quick assembly makes connection of each pipe, which is convenient for disassembly and cleaning. The parts, which contact with materials and exposed parts, are made of high-quality stainless steel. Complete machine safety, beauty and environmental protection.

Technical Parameters:

Filling head	6
Filling volume	5-30kg
Capacity	500-1600 barrels /H (5KG);400-560 barrels /H (30KG)
Filling accuracy	±0.1%
Voltage	220V, 50Hz
Power	3KW
Air source	1. 0.55-0.65MPa
Size	2200mm*1350mm*1820mm
Bottle type	Customized
Diameter of bung hole	Customized
