

SHZ Series High Speed Rapid Mixer Granulator/Wet Granulator

The machine is a process machine widely applied for solid preparation production in the pharmaceutical industry. It has such functions as mixing, granulating, etc. It is widely used in such industries as medicine, chemical industry, food, etc.

Features

The machine is a new machine researched and developed successfully by our company according to China's actual conditions after absorbing and digesting internationally advanced technology. It is made of high quality austenitic stainless steel. All corners are subject to arc transition without dead corners. The machine adopts PLC automatic control. The experimental process is completed automatically according to the set process parameters. All process parameters can be printed and the original records are true and reliable. It fully meets the requirements for medicine production in GMP.

Technical Parameter

Model	Main structural dimensions						Feeding	Mixing	Granulating power
							volume	power	
	H	H1	H2	L	L1	W	Kg	Kw	Kw
SHZ100	2220	1730	800	2500	1700	970	20-40	11	4
SHZ200	2450	1870	1200	2700	2000	970	40-80	22	5.5
SHZ300	2650	2070	1370	2900	2200	970	60-120	30	7.5
SHZ400	2700	2130	1370	3000	2200	1220	80-160	30	7.5
SHZ500	2900	2360	1450	3000	2200	1220	100-200	37	11
SHZ600	3100	2500	1470	3000	2200	1220	120-240	45	11
SHZ800	3260	2650	1570	3200	2400	1300	160-320	55	15
