

SHENZHEN PENGLAI
SINCE 2003

YX-CF800 *Fully automatic capsule filling machine*

YX-CF800 Fully automatic capsule filling machine characteristics:

- Accurate orientation, Capsule vacuum positioned mechanism to make the capsule upload percentage over 99%.
- Freely adjusting dosage, easy speed selection and closed capsule length adjustment.
- PLC program control panel with LCD touch screen operation, and monitoring function.
- Displaying in-time speed and accumulative output.
- Auto-trouble shooting, lack of material, lack of capsule, block in material channel and other mechanical trouble, make alarm and stop automatically.
- Electrical Appliance control system approved to CE, and international standard.
- Quick and accurate change part set-up, easy to remove rotary table and ring carrier assembly.
- Fully enclosed dosing stations and rotating table for integration of the whole capsule filling plants.
- Working station cam runs under the good lubricating condition, extends the operating life of change parts is made by USA HASS CNC machine.

NJP800	
Output	48000
No. of die orifice	6
Filling percentage	≥ 99%
Power (kw)	380V.50Hz 3.5KW
Vacuum	27m ³ /h-0.02~-0.08Mpa
Machine dimension	1350*1020*1850
Weight (kg)	850Kg
Noise emission	< 73dB(A)
