

Hidden Tea Cup Machine

Automatic tea hidden paper cup making filling machine green tea filling and packing machine is a kind of automatically heat sealing machine with the technology of quantitative tea packaging, the main feature is that it can automatically put fixed quantities of tea in the bottom of the tea cup, and cover with filter paper through heat sealing. No noise, stable and reliable while working.

Technical Parameters:

Capacity	2400-3000 pcs/hour
Filling volume	0-20 g/cup
Cup size	7oz-16oz
Voltage	220v 50hz
Total power	3kw
Weight	1200 kg
Packing materials	6000-6500 cups/kg ,≈6kgs/roll
Dimension	1600x1250x2100 mm
