

Nougat Candy Production Line HTL-T8000

The production line is a fully automatic complete plant for Nougat candy.

According to the actual needs of candy factories at home and abroad, this machine introduces the advanced technology of foreign machinery to manufacture a new generation of complete assembly line production equipment for peanut, sesame and milk sugar. The whole machine is composed of four parts: feed conveying, tablet pressing machine, cooling conveying cabinet and granulation forming machine. They are equipped with frequency conversion speed regulation control, with reasonable structure, operation and maintenance. It is ideal equipment for today's candy production, such as: (square, rectangular) milk candy, bezel sugar, peanut sugar, sesame sugar, bubble gum and so on.

Technical Parmeters:

Model	THL-8000
Production capacity	200-400kg/h
Total power	5.25kw
Voltage	380V
length Width Thickness	(L)10-150 (W)20-70 (H)5-15
Dimensions (L*W*H)	11130*1000*1700mm
