

Automatic Capsule Liquid-filling Machine YNJP-600C

- The filling rotary part is completely closed and easy to clean.
- One-way movement of the upper and lower modules, imported double-lip polyester sealing ring, good sealing performance.
- Capsule body, capsule cap synchronous particle detection.
- Can be filled with oily liquid, solution, suspension.

Technical Parameters:

Model	YNJP-600C
Filling dosage form	Fillable with oily liquids, solutions, suspensions
Capsule size	00#-2# capsule / safety capsule A-C
Max. Output	36000Capsules/Hour
Motor Power	2.9kw
Power Supply	AC380V 50Hz
Noise	≤75dBA
Vacuum Degree	-0.02~-0.06MPa
Dimensions	870x1020x1850mm
Weight	850kg
