

TLFM-M4 Linear Cosmetics Perfume Alcohol Magnetic Gear Pump Filling Machine

Linear Cosmetics Perfume Alcohol Magnetic Gear Pump Filling Machine is very efficient and cost-effective. It is widely used in various corrosive, low viscosity and particle free liquids, medicine, daily chemical and other industries, such as various chemicals (medicinal oils, medicinal wines, alcohol, eye drops, syrup), cosmetics (toner, makeup remover, spray), etc. The machine with magnetic pump is a good choice for low viscosity, small amount of foam liquid. 316 stainless steel pump can be used for filling very high temperature liquids.

Technical Parameters

Machine model	TLFM-M4
Power supply	110/220V 50-60HZ
Maximum flow velocity	5500ml/min (Each nozzle and base on water)
Working speed	20-30 bottles/min (based on 50-1000ml filing volume)
Air pressure	0.3-0.4MPa
Filling accuracy	≤±1% (For water)
Diameter of Filling Nozzle	6/8mm
Delay Range	0.01-999.9s
Count Range	1-99999 Times
Filling Volume	5- 1500ml
Size of air compressor connector	OD8mm
Bottle height	<220mm(Can be customized,max height 300mm)
Package Size	About 1290*860*720mm
Gross weight	About 70 kg
