

JT-215 Horizontal Round Bottle Automatic Labeling Machine

This machine is specifically designed for labeling long bottles that cannot stand steadily, such as instant adhesives, small injection bottles, RO filters, batteries, microphone pens, pen type correction fluids, etc.

Characteristic:

1. PLC combined with human-machine interface, intuitive operation, simple and clear
2. The entire machine is made of stainless steel and aluminum alloy, which are rust free and comply with GMP requirements.
3. This machine has functions such as bottle alignment, fitting, label smoothing, counting, etc
4. The position of the label can be adjusted.
5. Can be connected to conveyor belts for use on production lines.
6. Various special models can be customized according to customer requirements.

Technical Specifications:

1. Power supply: 110V/220V, 50/60Hz, 600W
2. Labeling speed: 0-25 meters/minute
3. Labeling accuracy: ± 1 mm (excluding errors between the object being labeled and the label itself)
4. Bottle diameters: 10-25mm, (special sizes can be customized)
5. Bottle heights: 25-100mm (special sizes can be customized)
6. Label width: 10-120 (special sizes can be customized for specific models)
7. Label roll diameter: Paper roll inner diameter 76mm, outer diameter (maximum) 360mm
8. Machine dimensions: length * width * height=2000 * 780 * 1550mm
