

## *SH-TB160P2 Full Electric Automatic 2 Heads Carton Box Cardboard Flat Surface Fanfold Label Top Labeling Machine With Feeder*

### **Main Feature**

- ▶ The stack feeder for automatic separation and continuous feeding, improving overall efficiency.
- ▶ Suitable for fanfold labels, ensuring smooth and stable label dispensing. Can be customized as needed.
- ▶ Capable of applying two labels on flat surfaces with adjustable labeling positions.
- ▶ Full electric operation to ensure stable performance, energy efficiency, and reduced maintenance.
- ▶ Conveyor width and length can be customized to suit different product sizes.

### **Parameter**

- Machine model: SH-TB160P2
- Power supply: 110V/220V 50-60Hz 1kW
- Labeling speed: 50-100pcs/min(dependent on product size)
- Labeling accuracy:  $\pm 3$ mm(excluding product and label error)
- Label dispensing speed: 37m/min
- Conveying speed: 37m/min
- Labeling object size: (L)160-420mm\*(W)160-420mm\*(Thickness)2-20mm
- Label size:  $W \geq 40$ mm,  $H < 120$ mm
- Package size: About 2410\*900\*1530mm
- Package weight: About 323kg
