

SH-VTGF4 4 Heads Automatic Servo Gear Pump Quantitative Body Wash Lotion Viscous Liquid Paste Tracking Type Filling Machine

Main Feature

- ▶ This filling machine is controlled by servo gear pump, it's suitable for filling viscous liquid like body wash, cosmetic lotion, etc.
- ▶ This tracking type filling machine can control filling nozzle follow moving bottles during filling work. It reduce production error and improve filling accurately.
- ▶ Controlled by servo system, filling volume can be set directly.

Parameter

- Machine model: SH-VTGF4
- Power supply: 110/220V 50-60HZ 7.5KW
- Filling pump: Gear Pump
- Filling range: 200-5000ml (Customizable)
- Bottle size: Customized
- Working speed: About 20-50 bottles/min (based on filling volume)
- Filling accuracy: About $\pm 0.5\%$
- Air pressure: About 0.5-0.7MPa
- Machine size: About 3600*1400*1980(L*W*H)
- Machine weight: About 530kg
