

SH-FS009D Automatic Servo Ultrasonic Cosmetic Hand Cream Dual Layer Chamber Soft Tube Paste Filling Sealing Machine

Main Feature

- ▶ Integrated design completes tube feeding, filling, and sealing in one machine to improve efficiency.
- ▶ Servo piston pump control ensures accurate filling with $\pm 1\%$ accuracy.
- ▶ Ultrasonic Sealing, provides firm, clean, and reliable sealing with stable performance.
- ▶ Can be equipped with letter molds to print production date or batch during sealing.
- ▶ Suitable for packaging cosmetic product like hand cream, body lotion, dual serum, toothpaste, etc.

Parameter

- Machine Model: SH-FS009D
- Power Supply: 220V/110V 50-60Hz 2.6kW
- Filling Range: 10-120ml/25-250ml(customizable)
- Filling Pump: Servo piston pump
- Filling Accuracy: $\pm 1\%$
- Working Speed: About 10-13 pcs/min (depending on tube size)
- Sealing Height: 50-210mm
- Sealing Diameter: 25-50mm
- Ultrasonic Frequency: 20KHz
- Hopper Size: 30L*2
- Air Pressure: 0.6MPa
- Machine Size: About (L)1830*(W)1400*(H)1780mm
- Machine Weight: About 530kg
