

MT-220 Automatic Flat Surface Labeling Machine for Box Card Bag

The MT-220 Electric Automatic Flat Surface Labeling Machine is a high-performance labeling solution tailored for flat and square containers such as boxes, cartons, cosmetic jars, and food trays. Featuring a servo motor system with a clutch-controlled tension mechanism, it delivers stable and precise label placement at a speed of 20–40 pieces per minute with ± 1 mm accuracy. Equipped with a Delta PLC, Weinview touchscreen, and premium optical sensors from OMRON and Leuze, the machine offers intuitive operation and reliable detection. Its compact stainless steel structure meets food-grade hygiene standards and is easy to clean, while supporting optional modules like ribbon coders or heat transfer printers. Ideal for use in cosmetics, food, daily chemicals, and pharmaceutical industries, the MT-220 ensures efficient, professional-quality flat surface labeling with seamless line integration.

Technical Parameters

Model	MT-220
Width of label	10-110mm
Length of label	20-200mm
Container size	Length: 40-400mm;
	Width: 40-200mm
	High: 0.2-150mm
Labeling Accuracy	± 1 mm
Labeling speed	20-40 pcs/min
Machine Size	2100*900*1550mm
Weight	270kg
