

KWTB Sidelong Horizontal Type Labeling Machine

The machine adopts mature touching PLC control system so as to make the machine working stable and high speed.

The operation system with touching screen control, easy operation, practical, high efficiency.

The use range is large; it is used in many specifications oral liquid and ampoule bottle etc spindle cylindrical material labeling

Enclosed rolling pressure loss label attached to weld more firmly

APPLICABILITY

Dedicated to cannot stand or stand instability slender label. For example: liquid bottles, small injection, bull pen, batteries, etc.

TECHNICAL SPECIFICATIONS

Model	KWTB
Voltage Specification	AC220V 50/60HZ
Consume Power	300W
Labeling Speed	0~300 bottles /min
Labeling Precision	±1mm
Range	Outer diameter 7~20 mm, height 30~80 mm
Use Range	Height 15~80 mm, length 10~65 mm
Overall Dimension	1800×700×1800mm (L×W×H)
