ROTARY LABELING SYSTEMS MODULAR PLUS 540 & 770

Dependable, Flexible,
Pressure Sensitive Labelers

FEATURES & BENEFITS

- High speed labeling - max outputs from 140 - 180 containers per minute
- Line layout compatibility - both clockwise and counter clockwise versions are available.
- Multiple labeling station configurations - each model can be built with 1, 2, 3 or 4 labeling heads.
- Flexible - servo driven bottle plates allow programmed, recipe driven container control.
- Fast, simple changeovers - tool-less quick release change parts.
- Repeatable set-ups - 5-axis labeling head adjustment with dial indicators ensures quick and repeatable set-up for each labeling head.
- Easy access for maintenance and changeover - small footprint, with rounded frame design makes it easy to access the machine components.
- Schneider PLC and VFD controls.
- Panel PC HMI for complete system control.
- Feedscrew infeed control with bottle stop.
- Ergonomic "lift" safety guarding.
- Nationwide service and support by ID Technology technicians.

Prearranged Options

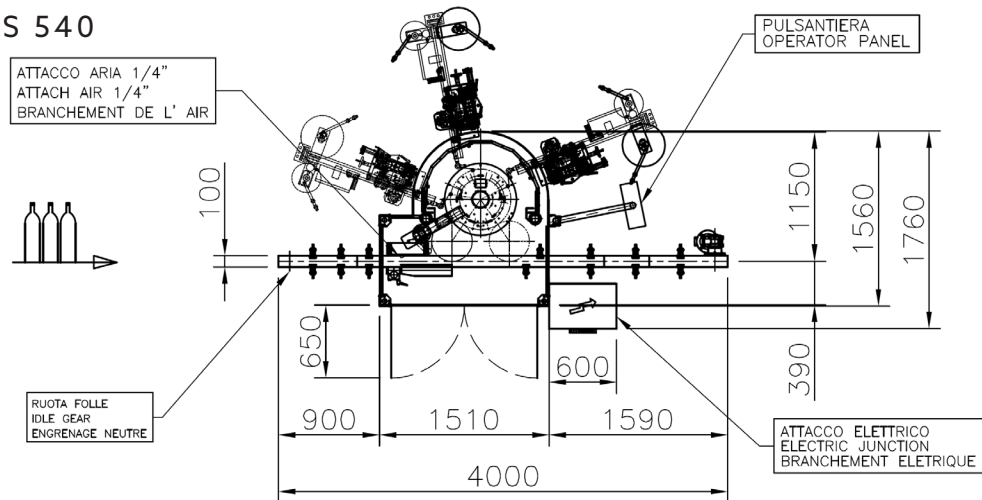

- Laser, TTO or inkjet coding for adding variable data.
- Electronic container orientation.
- Label inspection system.

US Based Facility

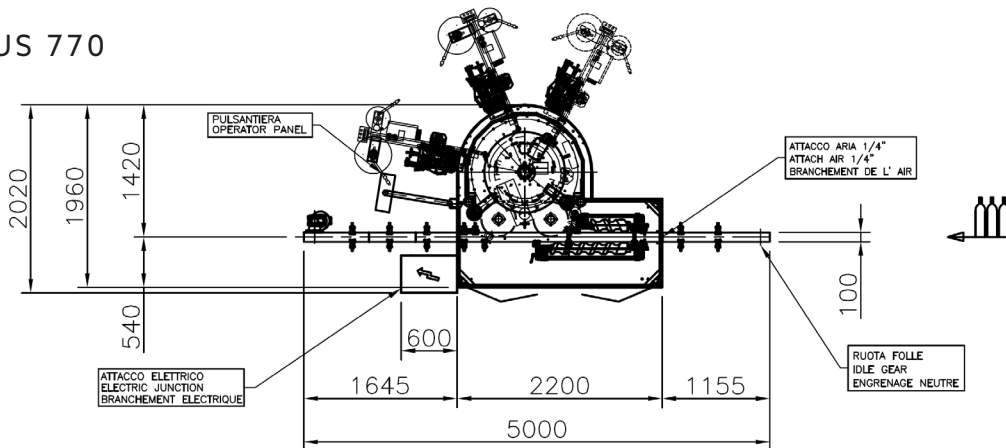

- Change parts design & manufacturing, machine final assembly, testing & FATs all accomplished at our plant in Cincinnati, OH. This ensures faster than industry standard deliveries - often in 6 to 8 weeks!.
