

MY-A Auto Flow Liquid Filling Machine for Bottle

The machine is widely used in the fields of food, daily chemical, medicine, etc to filling liquids.

Description:

MY-A full automatic piston liquid filling machine, based on the reference of similar products abroad to improve the design, and add some additional features. The photocell eye device, Taiwan PLC, touch screen, frequency converter and French electrical components. The prevent dripping and drawing filling bulkhead, anti high foam products filling lifting system, ensure that the bottle opening positioning system and liquid level control system.

This machine uses the piston to ration, sets the mechanical and electrical, the pneumatic is integrated, the electrical appliances and the pneumatic element selects the world famous brand. This series of paste filling machine is my company set many years of production experience, and the introduction of the world's advanced technology to absorb the development of a new generation of full automatic filling machine.

Specifications:

Model Type	MY-A-100	MY-A-280	MY-A-500
Motor (V/HZ)	AC 220V/50Hz 110V/60Hz	AC 220V/50Hz 110V/60Hz	AC 220V/50Hz 110V/60Hz
Power(w)	500	500	500
Capacity (bottle/min)	20-60	5-30	5-30
Packing Capacity (g)	5-100	10-280	20-500
Pressure	0.5-0.7MPa	0.5-0.7MPa	0.5-0.7MPa
