

## *TS2 Weighing Counting Machines*

**TS2 Weighing Counting Machine is suitable for weighing and counting products. The microprocessor continuously monitors the weighing system to guarantee the maximum speed.**

### **General Features**

Stainless steel or polyurethane lining, under customer request..

Feeding Hopper 40 lt

2 Pcs. pre-feeding vibrating channels controlled by mobile detector.

2 Pcs. intermediary vibrating channels suitable to feed constantly rough channels and the fine-feed channels.

2 Pcs. rough channels with pneumatic flow restriction flaps.

Final weight by counting with rollers driven by D.C. motor and with microprocessor.

Weighing basket of 12 lt with pneumatic driven opening system.

2 Pcs. Weigh heads equipped with load cell which is mechanically protected against overload.

Different programs can be registered for different products.

Adaptable for different machines (package, sack, box).

CE certificated

## TS2 Weighing / Counting Weigher Technical Data

<b>Features</b>	TS2
<b>Mechanical Speed</b>	Up To 15 cycle/min
<b>Product</b>	Screw Ø Min. M5, length min. 10 mm Screw Ø Max. M22, length max. 160 mm Nut Min. M6, max. M24
<b>Weighing Range</b>	500gr – 15kg
<b>Power Consumption</b>	6 kW
<b>Voltage</b>	380 V 3 Phase 50 Hz
<b>Air Consumption</b>	100 l/min
<b>Air Pressure</b>	Min 6 Bar
<b>Weight</b>	800 kg
<b>Dimensions (Width x Length x Height)</b>	1020 x 2625 x 2980 (mm)
