

## Round Container Labeling Machine SL-4318B

### Features:

Apply to round bottle's labeling and position-requested labeling. Positioning either at bottom or side.

1. Star -wheel product feeding method, high precision cam driving. 8-working position ensures high working speed up.
2. Servo motor drive, closed-loop control. High speed and high precision positioning.
3. Double pressing rollers design while feeding the label, which provides sufficient label tension force and avoids label break at weakness of die cut. Sectional type clutch makes the tension more balanced.
4. The labeling head is adjustable in 6 dimensions., powerful and flexible. All adjustment work can be done within minutes.
5. Simple and friendly HMI. Operating parameters can be saved and recalled for next usage. Error reminding message and troubleshooting assistant.

### Parameters:

- producing speed: Up to 150 pieces / min
- labeling accuracy:  $\pm 1\text{mm}$
- bottle diameter:  $\phi 15\text{-}\phi 100\text{mm}$
- label max width: 200mm
- label inner diameter:  $\phi 76\text{mm}$
- label outer diameter:  $\phi 380\text{mm}$
- outline size: L2000xD1200xH1600mm
- using power: 220V 50Hz 1500W
