

CDP-12B Automatic Atmospheric Type Filling Machine Without Frame

Applicable materials: liquid, cream and other low-viscosity materials.

Mainfeatures:

1. Adopting timing filling principle. It is the most common equipment for good mobility material.
2. Optional high-precision electronic scales, weighing data automatic transmission, realize intelligent adjustment of measurement.

Technical Parameters:

Production Speed	≤ 6000b/h
Bottle Size	W 33-100 mm . H 80-230 mm
Filling Volume	40-1000 ml
Dose Accuracy	±1%
Filling head	12
Air Pressure	0.6-0.8 mpa
Air Consumption	150 L/min
Power Supply	AC 220V.50/60 hz
Power	1kw
Weight	~ 500 kg
Machine Size	2000 x 710 x 2200 mm
	(LXWXH)
