

DY-60Y-1 Liquid Filling and Packaging Machine

Suitable for automatic packaging of food, medicine, fluid materials of chemical industry products, such as Edible oil, soy sauce, vinegar etc.

Feature:

- The machine form a complete set of vacuum pump filling equipment, sealing products more perfect and firm.
- Compact structure, solid, reasonable design, Introduction.
- Single-chip optical control system, reliable, stable performance.
- Speed, high precision, low noise.
- Automatic measuring, filling, bag making, date printing to the products at once.

Technical parameters:

Model	DY-60Y-1
Packing type	3/4 side seal
Packing width	30-100 (85) mm
Packing length	40-140 (120) mm
Packing volume	2-50ml
Packing speed	20-40bags/min
Power	1100w
Machine weight	160kg
Machine size	750*630*1600mm
