

NJP-120 Automatic Capsule Filling Machine

This model is minimum volume equipment of full automatic filling machine series, specialized in order to meet the pharmaceutical companies, hospitals, schools laboratory which small batch trail drug research and development.

Technical Parameters:

Model	NJP-120C
Filling Dosage Form	Powder or Pellets
Capsule Size	000#, 00#~5# and Supro A~E
Max. Output	7200 Capsules/Hour
Motor Power	0.7kw
Power Supply	AC 220V; 50Hz
Noise	≤75dBA
Compressed Air	Air consumption: 8m ³ /h Pressure: 0.4~0.6 MPa
Dimensions	730×700×1500mm
Weight	140kg
