

## ZX-550 Automatic Case Filling Machine (Double Heads)

The machine is automatic finishing massive items and put them into the cartons with manipulator. It is a high efficiency and energy saving which can replace artificial packing.

### Technical Parameters:

Case filling width	150mm-400mm
Case filling height	100mm-400mm
Case filling length	200mm-500mm
Table height	1000mm-1100mm
Filling speed	1-5cartons/min
Power supply	220V 50/60Hz
Air pressure	5.5-6kg/cm <sup>2</sup>
Machine weight	110kgs
Overall dimension	L2100×W1300×H1900mm
