

## *BGF-2-1D Automatic Vial Powder Filling Capping Machine*

This machine is filling, plugging and locking aluminum capping machine for the vials powder. Such as freeze-dried powder, all kinds of powder products, is widely used in cosmetic industry, pharmacy industry.

### **Features:**

- \* Touch screen setting, PLC control, accurate loading.
- \* Variable frequency control, production speed adjustment, automatic counting.
- \* Automatic stop function, no bottle no filling.
- \* Disc positioning filling, stable and reliable.
- \* High-precision cam indexing control for precise positioning.
- \* Made of SUS304 and 316L stainless steel, fully compliant with GMP requirements.

### **Parameters:**

<b>Model</b>	<b>BGF-2-1D</b>
Loading range	1-10g
Loading error	0.02-0.2
Production capacity	30-60 BPM
Filling method	screw metering filling
Power source	220V/50Hz
Power	2.0 kw
Machine net weight	700 kg
Dimensions(mm)	2000*1000*1800
