

## *SZH-series Double Cone Blender Powder Mixer*

It is suitable for mixing the powder and grain state materials in pharmacy, chemical, food, building materials and other industries.

This mixer/blender/agitator is used for mixing/blending/agitating some powders/granules together, this mixer/blender/agitator is applicable for pharmaceutical, chemical, foodstuff, feed, and pigment and electronic trades etc. It has remarkable effect in mixing powders and particles with relatively good fluidity.

### **Features**

Through the vacuum conveyor the machine, send the powder or grain state materials into the double-taper container, or send the materials into the container manually.

It's energy saving, easy for operation, the labor intensity is low, and the working efficiency is high.

**Technical specifications:**

Model	Total Volume	Loading Volume/ batch	Mixing	Barrel Speed	Motor	Weight	Overall dimension
			Time				(L x W x H)
<b>SZH-30</b>	30L	15L	8-15min	15(rpm)	0.37kw	160kg	1250*450*1060(mm)
<b>SZH-100</b>	100L	50L	8-15min	15(rpm)	1.1kw	220kg	1620*500*1480(mm)
<b>SZH-300</b>	300L	150L	8-15min	15(rpm)	1.1kw	280kg	1800*600*1850(mm)
<b>SZH-500</b>	500L	250L	8-15min	15(rpm)	3kw	320kg	1900*650*1850(mm)
<b>SZH-1000</b>	1000L	500L	8-15min	12(rpm)	4kw	550kg	2500*800*2050(mm)
