

Cartoning Machine with Glue Sealing Date Code

Cartoning machine is a kind of packaging machinery, including automatic cartoning machine, medicinal cartoning machine and so on. The automatic cartoning machine automatically loads the medicine bottles, medicinal plates, ointments, etc. and instructions into the folding carton, and completes the box closing action. Some of the more functional automatic cartoning machines also have sealing labels or heat shrink wrap. Package and other additional functions.

Technical Parameters:

Product Name	Box Cartoning Machine
Product Material	Paper weight:300- 350gsm/m ³
	Size :Max (L*W*H)200X130X90mm,Mini(L*W*H)100X40X35mm
Voltage	220V 50HZ
Air consume	20m ³ /h (pressure0.5-0.7mpa)
Dimension	3600x1450x1600mm
Weight	1100kg
Power	1kw
