

## *MT-50D Tabletop Labeling Machine with Date Printer*

It is suitable for round bottle labeling in the pharmaceutical, food, daily chemical and other industries. It can be used for full-circle labeling and half-circle labeling. Desktop design, simple structure, compact appearance and powerful function. It adopts card position adjustment, easy to switch labeling of different workpieces, advanced electric eye, high detection sensitivity of objects and labels. Synchronous belt traction, the mechanical stability is greatly improved. Suitable for self-adhesive labels, self-adhesive films, electronic supervision codes, barcodes, etc., and suitable for round bottle labeling such as plastic bottles, glass bottles, and metal bottles.

### **Technical Parameters:**

<b>Model:</b>	<b>MT-50D</b>
Working Method :	Semi Automatic
Working Speed:	25-50 Pcs/min
Bottle diameter:	15-120mm
Minimum label size:	W26*L25mm
Maximum label size:	W150*L300mm
Inner diameter of label roll:	≤75mm
Outer diameter of label roll:	275mm
Date Printing Function	Yes
Packing Size	610*340*570mm
Net Weight	28kg
