

## *Automatic Ampoule Bottle Labeling Machine*

### **Product Detail:**

1. Horizontal labeling machine adopt mature PLC and touch screen control system
2. Automatic horizontal labeling machine include the conveyor, fetch the label, stick the label on the bottle
3. Automatic horizontal labeling machine is used in many different industry area, such as Vial bottle, Ampoule bottle, tube.

### **Advantage:**

1. Operation: horizontal labeling machine adopt the Step motor/Servo motor
2. Material: Automatic horizontal labeling machine is made of SUS304 stainless steel
3. Configuration: Automatic horizontal labeling machine adopt well known Japanese, German, American, Korean or Taiwan brand parts

### **Technical Parameters**

Drive	Servo Motor Driver
Labeling Speed	100-180pcs/min
Bottle diameter	12-30 mm
label Width	10-90mm
label length	15-100mm
Precision	±1mm
Label Roll	Max: 300mm
Label Core	75mm
Machine Size	1800*600*1400mm
Power	110/220v 50/60Hz 500W
