

Automatic Labeling Machine YC-TB250

- This product complies with the relevant state food machinery, food hygiene regulations and requirements.
- Imported PLC and 7 inch touch screen man-machine interface, the production of parametric control, simple operation
- Imported high-precision servo motor drive labeling, stick it standard, high stability.
- Equipped with height, width adjustment the hand wheel, convenient adjustment labeling head about height and width, in order to adapt to different products such as water bottle, wine glass bottle, plastic bottle etc.

Technical Parameters:

Model	YC-TB250
Speed	6000-25000 per hour (label height within 100mm)
Main Machine Size	2000L x 1000W x 2100H mm
Machine Material	SUS304 /316L Stainless Steel ,
Weight	300kg
Label Cutting Range	Φ20~Φ50mm,Φ50~Φ95mm,Φ95~Φ130mm
Label Material	PVC, PE, PETG,ETC
Label Height	25mm ~ 300mm
Thickness of Label	0.03mm ~ 0.13mm
Sleeve Reel Inner Core	5 " ~ 10 "
Voltage	3 phase 220v/240/380V/415 50hz/60hz(can be customized)
Power	3.5KW
