

KY-250 Soft Capsule Machine

KY-250 soft capsulation production line is of large scale production equipment. The single unit annual production capacity is 4 hundred million capsules. Adopts international advanced control technology, precisely design precisely producing, it is the dependable equipment for the production of high quality soft capsules. Humanized design, easy to operate .The mold matches the mold shaft, to avoid damage in the process of loading and unloading.

Special injection assembly protects injection body from damage during loading and unloading, and reduces labor intensity of operators.

All daily maintenance parts are simplified design, convenient and efficient.
Professional industrial aesthetic design makes the overall appearance of artistic.

Technical Parameter:

Die roller speed	0-6 RPM (frequency control)
Die roller size	φ150x250mm
Single-piston feed rate	0-2ml
	0-3ml Customizable
Capacity	100,000 caps/h, 8# olive(500mg)
	50 Kg/H
Load difference	≤±2%
Load precision	±1%
Motor power	1.5kw
Total power	12kw
Power supply	380V, 50Hz
Dimension	2260x1000x2060mm
Weight	1400kg
