

GTI-J250 Pharmaceutical Soft Gelatin Capsule Filling Machine

Our Soft gel making machine can quantification ally inject the oil, mixing suspension and pasty mass into the capsule to form all kinds of softgel encapsulation with different size, shape and color. It is designed to produce softgels from either animal gelatin or plant starch. We are an expert in the soft gel encapsulation machine manufacturing. All machines come in both standard and custom designs for various soft gelatin capsule filling needs in pharmaceutical, chemical and food processing industries.

Advantage:

- * You can easily customize your custom Softgel capsule to fit your personal shape and size.
- * It has an increase in bioavailability.
- * You can fill different types of liquids, semi-liquids and suspensions.
- * You can easily swallow Softgel capsules without using water.
- * Softgel capsules have airtight seals that is not easy to tamper with thus making them safer.

Technical parameters:

Model	GTI - J250
Rotary speed of die roll	0-5rpm
Supplying Volume for flow single-pillar pistol	0-2ml
Difference among filling volume	±2%
Power for whole machine	16.5KW
Pillar quantity	20
Contour sizes	2300×1275×2400mm
Weight of whole machine	2800Kg
