

## DPB-250(320) L ALU-PVC-ALU (Tropical ALU) Blister Packing Machine

This machine mounts up forming and sealing of tropical aluminum on the basis of 250 blister packing machine. It takes on sealing moisture proof and light-avoiding entrance the value of product. It is widely used to pack all kind of products in pharmacy, food, medical health products, and medical apparatus etc. industrials.

### Features:

- 1) Adapts the elements of 250 blister packing machine, machine-tool track type machine basis, ease of adjusting the mould, precision of location.
- 2) It adapts body-division mechanism to avoid inconvenience of transfer due to the length of the body 1.8m by mounting up the forming and sealing assembly.
- 3) Our machine adapts imported and special made rubber lock-mould, smooth surface of forming. Without additional length of traction, save material 2mm each punch at around 2.5%, increase the benefit.

### Main technical parameters:

punch frequency (times/min)	10-35
Capacity(strip/h)	5400
max shaping areas and depth(mm)	<=240x110(standard) 240x150(max)
Stroke(mm)	30-120(can be manufactured as user's requirements)
Standard Plate(mm)	70X98(can be manufactured as user's requirements)
Air Pressure(kw)	1.5
Total power	380V/220V 50Hz 7kw
Packing material	PVC hard pieces 0.15-0.5x250 PTP aluminum foil(mm) 0.02-0.035x250 Dialysis paper(mm) 50-100gx250
Moule colling	Tap water or Recyle water
overall dimensinons	4250x750x1500(LxWxH)
weight(T)	2.2
