

Perfume Filling Machine

A semi-auto soft glue filling and capping machine is mainly used for glass bottle perfume filling and capping.

This MIC-L40 SEMI-auto perfume filling & capping machine contains a working disk and two vibrating plates. It has 3 filling heads and 16 positions.

Advantages:

Small and saving space
Efficient and precise
Easy to operate and flexible
Stainless steel body, neat and beautiful

Main features of MIC hot sell manufacturer automatic perfume bottle filling crimping machine

- 1) Simple structure in linear type, easy in installation and maintain.
- 2) Adopting advanced world famous brand components in pneumatic parts, electric parts and operation parts.
- 3) Running in a high automatization and intellectualization, no pollution
- 4) Self bottle loaded
- 5) Stainless steel body, neat and beautiful
- 6) No bottle no filling

Parameter:

Filling nozzle	2 piece one piston filling nozzle one vacuum filling nozzle	Filling volume	50-150ml
Filling form	Piston and vacuum filling	Filling speed	20-30 bottle per min
Filling accuracy	+/- 1mm	Material tank / bottle table	25L / 600*300 mm length and width 2 pieces (input and output)
Controller	PLC+ touch screen	Machine Filling nozzle tank	SUS 304
Air pressure	0.6-0.8Mpa	Conveyor belt	82mm SUS 304 Chain belt 750mm +/- 25mm
Conveyor motor	370W adjust transducer motor	Power	1Kw 220v single phase 5 wire
